MEMORANDUM FOR:

Acting Director, National Reconnaissance
Office

FROM:

Robert W. Gambino
Director of Security

SUBJECT:

Review of NRP Security Policies
and Procedures

25X1A

1. The completion of the damage assessment in the Boyce-Lee case has been delayed by the large amount of information potentially involved. This, therefore, is an interim reply to your memorandum of 25 February 1977.

2. As you know, an Office of Security task force, including the NRO Assistant for Security, is conducting a detailed study of the Boyce-Lee case and another serious security case currently before the courts. I anticipate completion of this study and the receipt of the task force's recommendations before the end of this month. At that time I will be pleased to discuss with you the findings of the task force and to review possible modifications of compartmented programs to enhance security.

25X1A

3. I will be in touch with you to arrange a meeting as soon as I have received the task force report.
